# LAKSH NAGPAL

*MERN Stack Developer*

+917023398492 lakshnagpal577@gmail.com lakshnagpal577-boop Guwahati, India

## EDUCATION

**Indian Institute of Information Technology Guwahati** Aug 2024 – May 2028
*B.Tech in Computer Science Engineering* *CPI : 7.72*

## PROJECTS

**ShopNest AI | AI-Powered E-Commerce Platform** May 2026 – Present
*Lead Developer*

- Developing a full-stack AI-powered e-commerce platform with user authentication, product management, shopping cart, and order management.
- Building RESTful APIs using Express.js and MongoDB following the MVC architecture for scalable backend development.
- Integrating Redis for caching frequently accessed data to improve application performance and reduce database load.
- Implementing secure online payments through the Razorpay payment gateway.
- Working on AI-powered product recommendations to enhance user experience and personalized shopping.

***Technologies / Tools Used:*** *Node.js, MongoDB, Redis, JWT, Tailwind CSS, Express, React*

**Interview AI (In Progress) | AI-Powered Resume & Job Description Analyzer** Jun 2026 – Present
*Lead Developer*

- Developing an AI-powered application that analyzes resumes against job descriptions to identify skill gaps and measure candidate-job compatibility.
- Building a resume parsing pipeline to extract technical skills, education, projects, and work experience from uploaded resumes.
- Implementing AI-based semantic comparison between resumes and job descriptions to generate personalized skill-gap analysis.
- Designing a personalized learning roadmap that recommends skills and creates structured study schedules based on the target job role.
- Developing an interactive dashboard to visualize resume insights, match scores, and recommended learning paths.

***Technologies / Tools Used:*** *React.js, Node.js, Express.js, MongoDB, LLM APIs, REST API*

**Blogify | Blog Application** May 2026 – May 2026
*Lead Developer*

- Developed a full-stack blog application enabling users to create, edit, delete, and view blog posts.
- Implemented secure user authentication and authorization using JWT for protected routes.
- Built RESTful APIs with Express.js and MongoDB to manage users and blog content efficiently.
- Designed a responsive and user-friendly interface for seamless content creation and browsing.
- Structured the backend using the MVC architecture to improve code organization and maintainability.

***Technologies / Tools Used:*** *Node.js, Express, MongoDB, JWT, REST API*

## SKILLS

| | |
|---|---|
| **Programming Languages :** | Python, Java, C, C++, JavaScript, SQL |
| **Frameworks & Libraries :** | Node.js, React, Express, Tailwind CSS |
| **Databases :** | MongoDB, MySQL |
| **Computer Science Core Subjects :** | Operating System, OOPS, DSA, DBMS |
| **Tools & Platforms :** | Git, GitHub, Postman, VS Code, IntelliJ IDEA |
| **Soft Skills :** | Communication, Leadership, Problem Solving |
| **Languages :** | English, Hindi |

## CODING PROFILES

- Max Rating: 1160 on Codeforces; actively participate in competitive programming contests.
- Solved 500+ Data Structures and Algorithms problems across multiple platforms including LeetCode, GeeksforGeeks, and Codeforces.

## COMPETITIVE EXAM PERCENTILE

- **JEE Mains 2024:** 98.56 percentile
